

Clip for ball transfer unit

BPHFCLIP

Easy mounting

- **Mounting clip for barrel shaped ball transfer units**
- Compensates for irregularities in size and diameter
- Ideal for where there is only access to one side of the mounting surface
- When using mounting clips, the diameter and height will change. For effective retention, a plate thickness of at least 3 mm is required

Mounting

- 1 Install the clip in the bore
- 2 Push the ball unit through the clip
- 3 The external tabs extend and grip the shaft of the supporting ball

Typical application
