

Indexing plunger with cam

DILC_G

Steel - Black thermoplastic

- Indexing plunger with cam lever

- The lever makes handling quick and easy

- Materials

Threaded sleeve and locking pin in free-cutting steel
Handle in glass-fibre reinforced thermoplastic
PPA (high temperature resistant)

- Operating temperature 160°C (250°C peak)

With or without nut

NEW

Advantages

- Quick and easy to use
- Suitable for high temperature applications
- With integrated locking function

Indexing plunger with cam

DILCGSS **Stainless steel** - Black thermoplastic

- Indexing plunger with cam lever

- The lever makes handling quick and easy

- Materials

Threaded sleeve and locking pin in 303 stainless steel
Handle in glass-fibre reinforced thermoplastic PPA (high temperature resistant)

- Operating temperature 160°C (250°C peak)

Advantages

- Quick and easy to use
- Suitable for high temperature applications
- With integrated locking function
