

- Self tapping insert with fine external thread

- Material: brass

### Applications

- For use with thermosetting plastics and hardwoods

### Mounting

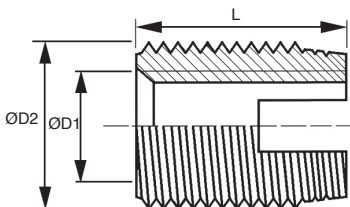

- Mount the insert in a plain hole with the aid of the Insertion tool INS-TOOL, a tap, a drill fitted with a threaded head or an automatic threading machine.

- The insert should be installed in such a way that the thread/slot cuts its own thread

- For soft material the initial hole should be drilled at the minimum recommended size, for a hard material, at the maximum recommended size

### Info.

- Sold by the packet

**Excellent resistance to being extracted**
