

Self tapping stainless steel insert

Sta Stock

INSss

For hard materials

- Self tapping insert with fine external thread
- Material: stainless steel 303 (except for M10 +M12 threads: stainless steel 430F)

Applications

- For use with aluminium or other non ferrous metals, thermosetting plastics and hardwoods

Mounting

- Mount the insert in a plain hole with the aid of the Insertion tool INS-TOOL, a tap, a drill fitted with a threaded head or an automatic threading machine.
- The insert should be installed in such a way that the thread/slot cuts its own thread
- For soft material the initial hole should be drilled at the minimum recommended size, for a hard material, at the maximum recommended size

Info.

- Sold by the packet

Excellent resistance to being extracted
