Black EPDM sealing washer

Hygienic Usit®

RDE-NHUSS

- ***Sealing washer for Hygienic Usit®***
- *Flat metal gasket with elastomer bead for cavity-free, static sealing of screwed connections.*
- *Material:*
  Stainless steel 1.4404 (316L)
  Rubber seal: 70 EPDM 291 black

For food industry use

Advantages

- *The sealing washer ensures there is no risk of any cavities within a screwed connection.*
- *Residues or cleaning liquids cannot not settle unnoticed thus avoiding any contamination by germs or bacteria.*

Use

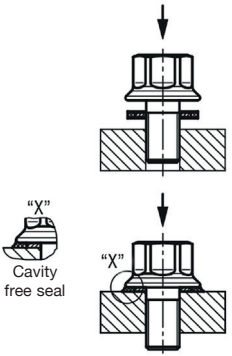

- *Even if, when tightening the screw connection, the elastomer bead cannot be overloaded by the integrated stainless-steel washer, any material will arrive sooner or later at the end of useable life. Fragments could then be found in foodstuffs. The sealing materials used and the colours used make it easy to detect these unwanted elements.*

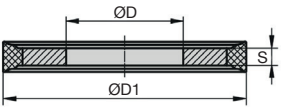

Application

- *Used mainly in food and beverage industries as well as in dairies*

Warning

- *The Hygienic Usit washer cannot guarantee a cavity-free watertight screwed connection unless it is used with screws or nuts from the Hygienic Usit® range.*

White EPDM sealing washer

RDE-WHUSS

Hygienic Usit®

- ***Sealing washer for Hygienic Usit® screws***
- *Flat metal gasket with elastomer bead for cavity-free, static sealing of screwed connections.*
- *Material:*
  Stainless steel 1.4404 (316L)
  Rubber seal:
  70 EPDM 291, white

For use in medical and pharmaceutical industries

Advantages

- *The sealing washer ensures there is no risk of any cavities within a screwed connection.*
- *Residues or cleaning liquids cannot not settle unnoticed thus avoiding any contamination by germs or bacteria.*

Use

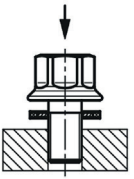

- *Even if, when tightening the screw connection, the elastomer bead cannot be overloaded by the integrated stainless-steel washer, any material will arrive sooner or later at the end of useable life. Fragments could then be found in foodstuffs. The sealing materials used and the colours used make it easy to detect these unwanted elements.*

Application

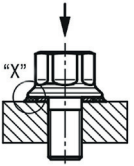

- *Mainly used in medical and pharmaceutical industries*

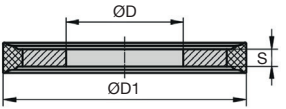

Warning

- *The Hygienic Usit washer cannot guarantee a cavity-free watertight screwed connection unless it is used with screws or nuts from the Hygienic Usit® range.*

Blue EPDM sealing washer

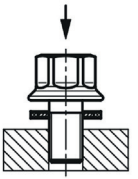

Hygienic Usit®

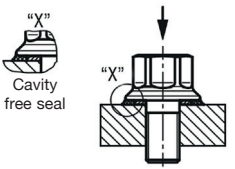

RDE-BHUSS

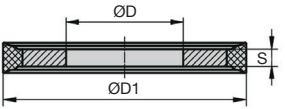

- ***Sealing washer for Hygienic Usit® screws***
- *Flat metal gasket with elastomer bead for cavity-free, static sealing of screwed connections.*
- *Material:*
  Stainless steel 1.4404 (316L)
  Rubber seal: 75 Fluoroprene XP 45, blue

For hostile environments

Advantages

- *The sealing washer ensures there is no risk of any cavities within a screwed connection.*
- *Residues or cleaning liquids cannot not settle unnoticed thus avoiding any contamination by germs or bacteria.*

Use

- *Even if, when tightening the screw connection, the elastomer bead cannot be overloaded by the integrated stainless-steel washer, any material will arrive sooner or later at the end of useable life. Fragments could then be found in foodstuffs.*
  The sealing materials used and the colours used make it easy to detect these unwanted elements.

Applications

- *For special requirements, such as very greasy and corrosive liquids or very high temperatures, which can occur for example, during cleaning operations.*

Warning

- *The Hygienic Usit washer cannot guarantee a cavity-free watertight screwed connection unless it is used with screws or nuts from the Hygienic Usit® range.*
