

Detachable **V** belts

STL **SUPERLINK**
SP WEDGE BELTS

Available to suit SPA,
SPB and SPZ pulleys

- SP compatible SuperLink belts offer the same performance as original SP belts but with a many additional benefits.

- A longer lasting V shaped belt.

SuperLink detachable V belts are made from a polyester/polyurethane composite. This combination ensures a longer belt life even in the harshest conditions — up to 20 times longer in some applications.

- High resistance to extreme temperatures (-40° to +100°C)
- High resistance to abrasive materials
- High resistance to water, steam, oil and most chemicals

- Quick and easy mounting

The link style construction means that belts can be fitted easily and quickly even on difficult to access drives. Belts can be joined around the shafts without dismantling the drive.

- Can be assembled to any length, reduces the number of belts in stock.

With SuperLink detachable V belts, there is no need to hold stocks of every belt length. Make to length on site simply by adding or removing links.

- Minimal maintenance – “Fit and Forget”

High quality materials ensure that the belt displays minimal stretch even over long periods. Almost no re-tensioning required.

**Quick
assembly**

Typical applications

- Reduced belt vibration and noise

The link design means that these belts can reduce transmitted vibration and belt noise by up to 50%.
