

# Magnetic stud with central hole

AlNiCo

VAP

- AlNiCo magnets with central through drilled mounting hole
- Both faces are machine finished and have a strong attraction force in a reduced size
- Working temperature -50°C to +450°C
- Good shock resistance

**For recessed mounting, following precautions should be observed**

- in a non-ferrous support: none specified
- in a ferrous support: magnet should be isolated from the support by an air gap or non-ferrous material

## Applications

- Suitable for fixing or positioning of components in reduced spaces and possibly subject to high temperatures
- Positioning of inserts in moulding machines...
