

# Rotating bent lever

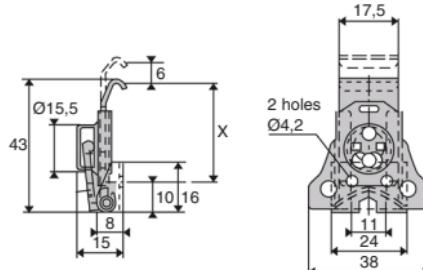

New

## GT64 AC161

### Common applications

- Closure by eccentric cam by turning the butterfly nut
- Automatic return of the butterfly nut by a spring system.
- Model designed to be hung in a recess (use of an AC161 hook is possible but not essential)
- Good tensile strength.
- Easy to operate
- Smaller footprint
- In the open position, the unit folds down completely.
- Very high safety against accidental opening (e.g. during vibration).
- Allows for seamless use and greater flexibility in positioning tolerances.
- Material:  
White galvanised steel or stainless steel

## Increased fitting tolerances

GT64R  
AC161

- Closure by eccentric cam by turning the butterfly nut
- Automatic return of the butterfly nut by a spring system.
- Model designed to be hung in a recess (use of an AC161 hook is possible but not essential)
- Good tensile strength.
- Easy to operate
- Smaller footprint
- In the open position, the unit folds down completely.
- Lead sealing option
- Very high safety against accidental opening (e.g. during vibration).
- Allows for seamless use and greater flexibility in positioning tolerances.
- Material:  
White galvanised steel or stainless steel

NEW!

**Advantage**

- Compensation for tolerances on fitting sizes by 4 springs.

**Info**

- The approximate fitting size: X = 31,4 mm for a tension of about 60 dAN.
- Usable hook: AC161
